

WHY YOUR NEXT FORKLIFT SHOULD BE A HYUNDAI

▲ HYUNDAI
HIGH PERFORMANCE FORKLIFTS
The driver's choice

FUTURE-PROOF YOUR BUSINESS WITH HYUNDAI SMART TECHNOLOGY & SAFETY

Hyundai is the only name you need to know when it comes to the latest technology, safety and environmental considerations.

Since 1987, Hyundai has been using the same advanced engineering and design capabilities in its motor vehicles to develop high-performance diesel, LPG and electric forklifts.

Hyundai is driven by bringing the latest technology to everyday applications – what is built-in with Hyundai is optional on competitors.

Hyundai is at the forefront of environmental protection with Hyundai forklifts able to meet Tier 4 emission standards. Due to our on-board technology we are able to reduce environmental impact by up to 20% in terms of reduced tyre wear, energy consumption and durability on parts.

Our research and development leads the way when it comes to adapting, changing and improving design to meet the ever-changing needs of business, including any specific needs you may require.

Hyundai's current generation high performance forklifts include: in-dash customisable and adjustable performance parameters, Large full-colour LCD screen, built-in maintenance management system and weight indicators, full on-board diagnostics and black box data recorder.

In-built safety is at the core of all Hyundai forklifts including: auto park brake, hill start assist, curve control, stability control, LCD cameras, seat belt interlock, overload protection, inclination warning system and pedestrian alert systems, blue-LED spot-light and more.

You can be confident that every Hyundai forklift is at the forefront of safety and technology

THE DRIVER'S FORKLIFT THAT DRIVES YOUR PRODUCTIVITY

Hyundai high performance forklifts have been designed from the ground up to enhance your workers driver performance and your business productivity.

Hyundai recognises that your drivers are your most important asset, and their forklift is their office. So from the minute a driver sits in a Hyundai there is no return.

All Hyundai high performance forklifts have been designed to be intuitive, easy to use and packed with 'driver-friendly' features. Importantly they are also extremely quiet, smooth and comfortable for all-day operations.

Ergonomics are at the forefront with enhanced leg-room with our 'all day' comfort grammar seat and enhanced driver visibility. And yes, they even come equipped with cup holders.

All Hyundai high performance forklifts are extremely durable, reliable and dependable. This is further enhanced with the on-board control system (such as rear-view camera) that can be tailored to maximise driver safety as well as the life of your asset.

If your forklift does breakdown or is damaged, Hyundai high performance forklifts are designed for serviceability and easy repair with on-board diagnostics built-in.

Hyundai forklifts maximise your productivity by making your drivers more productive and minimising downtime.

HYUNDAI SERVICE & SUPPORT ONLY AN INDEPENDENT DEALER CAN PROVIDE

Every Hyundai dealer is independent and a business owner just like you.

So you can be confident and assured that if at anytime and anywhere you do require support they will do whatever it takes to get you back up and running.

Whether it's a question you need an answer to, or a spare part or a back-up machine to get you out of a problem, you can depend on your local independent Hyundai Dealer to have your back.

Every Hyundai Dealer knows your Hyundai forklift inside out, and top to bottom so their commitment to uphold and exceed normal service standards ensures maximum performance for the life of your forklift.

Our Independent Dealer network is further supported by our Hyundai National Management Services office that supports our national Dealer Network and provides access to a centralised knowledge bank and spare parts and if needed direct access to the Hyundai Materials Handling global network and factory R&D and technical support.

**When you deal with a Hyundai
Independent Dealer you can trust
them to provide the best service
and support at all times.**
